- **Who?** Every fAA member is welcome, and any other low and slow fliers, or aficionados are also encouraged to show up - even better if you let me know in advance. If you're planning on coming, please contact John Rodkey by email or phone. He needs to know so that we can plan food and activities. We'd like at least a week's warning, but if you just show up without announcing, that's OK, too. We'll probably have plenty of food, certainly plenty of fun.

- **Why?** Does this even need to be answered????
